### BENSOS LAUNDRY DETERGENT

#### MAIN FEATURES

**Bensos Laundry Detergent** is a concentrated detergent for either machine laundry or clothes washing by hand (after dilution).

**Bensos Laundry Detergent** is effective even at low temperature and is low foaming. It is recommended for both traditional and bubble air washing machines.

#### USE AND DOSAGE

**By machine:** pour the right dosage either into the dispenser or directly into the drum, without selecting prewash. Comply with washing instructions upon clothes labels.

**By hand:** pour 40 ml in 10 liters of cold or warm water, complying with washing instructions upon clothes labels. Soak for some minutes, then rinse many times with cold water.

Water hardness	< 20°F	20 - 30 °F	> 30°F
Lightly soiled	40 ml	60 ml	100 ml
Medium soiled	60 ml	80 ml	120 ml
Very dirty	80 ml	100 ml	140 ml

In the presence of stains it is preferable to pre-treat passing a little bit of pure product over clothes.

It can be associated with a powder bleaching agent, as sodium percarbonate, that could be added into the washing machine or used to pre-treat particularly difficult stains.

#### TECHNICAL FEATURES

Appearance: brown clear liquid

Odour: slightly ammonia-like

pH: 10,2 ± 0,2

Specific weight: 1,1 g/ml

Dry content: 32%

It contains only easily biodegradable surfactants according to Reg 648/2004/CE.

All organic chemicals are easily biodegradable according to OECD Tests 301 A-F or equivalent.
