### BENSOS WASHING-UP LIQUID

#### MAIN FEATURES

**Bensos Washing-up liquid** is a low foaming detergent, it combines degreasing power on the crockery with soothing effect on hands. Neutral pH, allergen-free.

**Bensos Washing-up liquid** is Nickel Tested (Ni < 0,00001% according to APAT CNR IRSA 3200 Man 29 2003), so it is safe for people allergic to Nickel.

#### USE AND DOSAGE

pour the right dosage in 5 liters of water and, after soaking, wash and rinse dishes.

Otherwise some drops of detergent may be put on a sponge, in order to wash directly damp dishes without pre-soaking.

Water hardness	< 20°F	20 - 30 °F	> 30°F
Dosage	5 ml	10 ml	15 ml

(1°F = 10 mg/l CaCO<sub>3</sub>)

#### TECHNICAL FEATURES

Appearance: clear liquid

Odour: typical

pH: 7,2 ± 0,2

Specific weight: 1,02 g/ml

Dry content: 21%

It contains only easily biodegradable surfactants according to Reg 648/2004/CE.

All organic chemicals are easily biodegradable according to OECD Tests 301 A-F or equivalent.

All chemicals show low aquatic organisms toxicity (EC50 > 1 mg/L).

It does not contain chemicals classified as allergens (enzymes included).

It does not contain phosphorous.

It contains neither sodium lauryl sulfate, nor sodium cocoyl sulfate, nor potassium cocoate.

It contains no dyes.

It does not contain low biodegradability bittering agents.

#### CHEMICAL COMPOSITION

Aqua, Cocoyl amidopropyl betaine, Sodium coceth sulfate, Sodium lactate, Ethoxylated fatty alcohol, Alkylglucoside, Phenoxyethanol, Sodium chloride, Tetrasodium glutamate diacetate, Sodium propionate, Citric acid.

#### PACKAGING

0,75 Lt bottle	5 Lt container	20 Lt economy-size container
